

About Us

Founded in 2004, Karma Dog is a veterinarian-endorsed dog training organization home to experienced behavior specialists and professionals. We are members of the *Association of Pet Dog Trainers* (APDT # 67243), and we've founded the not-for-profit educational group, *Trainers who Participate in*

Socialization Parties (TPSP #1).

Utilizing a Zen-like application for teaching called the "Karma Dog Method," our process is considered by many veterinarians to be the most gentle, effective and enlightened approach to dog training available. We only use gentle and effective, 100% positive reinforcement training and behavior-shaping techniques endorsed by the AHA, HSUS, SPCA, ASPCA and most Schools of Veterinary Medicine.

Expert Dog Trainers

We are endorsed by over 2,500 veterinary clinics and have been featured as an expert dog training organization on news outlets such as NBC, ABC, CBS, and FOX.

Philosophy

Before you can choose an actual dog trainer, we believe you must first decide what kind of bond you want to establish with your dog. Do you want a relationship based on intimidation and force or would you like one based on cooperation and trust? Do you want to use pain to get your dog to listen to you or would you rather use pleasure? Choke chains or cookies? It really is a choice.

To take it a step further, we truly believe every single one of us raising dogs today shares an incredible responsibility in determining how our dogs will view their world. Will they see through eyes of fear or through eyes of love?

The latter is only possible with a process of training and interaction with your dog that uplifts their spirit rather than tears it down. Both techniques may produce the results you want; however, only one method will feel right in your heart.

Puppy Kindergarten & Socialization Classes *Veterinarian-Endorsed (Starting at 8 weeks old)

Karma Dog has created a dynamic puppy kindergarten and socialization class designed to give your newest addition to the family the head-start in life they deserve. Endorsed by Veterinarians, Rescue Organizations, Animal Shelters, and Doggie Daycare Professionals, we give unprecedented care and attention to each puppy.

Taught in state-of-the art indoor training facilities featuring climate-controlled spacious rooms, the grounds are kept immaculate, and they are parvo and distemper disinfected before each class. This allows maximum safety and comfort for your new puppy!

Safe for Your Puppy!

"This is a wonderful way to socialize puppies in a safe and responsible manner."

*-Dr. Ian Dunbar, Veterinarian
and Founder of the Association
of Pet Dog Trainers*

Basic Dog Obedience Classes

By attending one of Karma Dog's innovative and educational basic dog obedience classes, you'll learn the skills to gently shape your dog's responses and begin a process of communication built on the foundation of cooperation and mutual respect.

You will learn Karma Dog's 7 **Requests for Success:** "Come," "Stay," "Down," "Heel," "Leave it," "Watch Me," and "Go to Your Bed." You'll achieve this all with easy hand signals and voice cues—no harsh corrections!

In addition, you'll be given access to our online Educational Center so you can download all of the course materials we teach during the course.

Private In-Home Sessions

By engaging in private, one-on-one, in-home sessions you can expect to develop the tools, strategies and knowledge to deal effectively with all aspects of your dog's behavior.

These timeless teachings will also give you a greater understanding of your role in your dog's behavioral obstacles and how they originated.

We then provide you with many practical applications for overcoming them, turning them from potential negative experiences into positive healing opportunities.

What You'll Learn

How to improve or manage all behavior modification problems:

**House-training • Chewing • Nipping • Leash Etiquette
Aggression • Jumping • Digging • Separation Anxiety
Dominance Issues • Resource Guarding • Barking**

In addition, you'll learn a myriad of powerful remedies such as "The 4 Key Concepts of Positive Dog Training," our easy-to-follow "16 House Rules," and a 3-step formula to address future problem behaviors.

Smart & Hybrid Packages

We understand that good solid training doesn't happen overnight. That's why we're happy to offer discounted training packages called Smart & Hybrid Packages!

- **Bronze Series**
3 private in-home dog training sessions *(Save 5%)*
- **Silver Series**
5 private in-home dog training sessions *(Save 10%)*
- **Gold Series**
7 private in-home dog training sessions *(Save 15%)*
- **Expert Series**
10 private in-home dog training sessions *(Save 20%)*
- **Doggie Dozen**
12 private in-home dog training sessions *(Save 25%)*

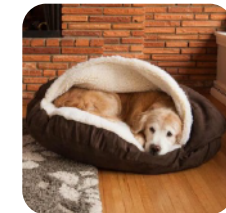

Board & Train Program

Your dog will come and live in one of our trainer's homes and receive daily lessons. They will be trained inside, outside, around other dogs, at the park, etc. Between sessions your dog will receive exercise and socialization. We will not cage your pup under any circumstance unless specifically requested by you to do so.

We offer all different lengths of programs but our experience shows that no matter how long a dog stays and trains with us, without the proper follow through by the pet parents there will be no measurable short-term or long-term results. This is why we choose to work exclusively with pet parents who are 100% committed to participating in the FREE follow-up private training sessions and UNLIMITED group classes we provide with each program.

Reverse Board & Train Program

Dogs are what we refer to as "contextual learners," they learn best in relation to their own environment. With our Reverse Board and Train program, your dog is learning in the environment where most of their "bad behavior"

happens. As a result, the learning curve is shorter, results happen faster and your dog associates the pleasure of learning and growing to their natural environment.

We offer 2 different types of Reverse Board & Train programs: Day Only (Business Hours) or Day with Overnights (Vacation Option). In fact, you can be right there watching the entire time or you could not be there at all. It's up to you!

Zen Daycare (In our Home or Yours!)

We believe doggie daycare should be a peaceful, relaxing, and joyful part of your dog's daily experience, not a place they spend all day bouncing off cement floors in a sterile storefront.

Positive interactions, peaceful meditation music, and healthy organic dog treats is what Karma Dog Zen Daycare is all about. Each puppy or dog enrolled in our Zen Daycare program is carefully screened for temperament and sociability to ensure a positive experience for everyone.
